Find a Doctor

At Independent Health, we make it easy for you to identify each health care provider who participates in our network. Search for doctors, hospitals, urgent care centers or pharmacies with our Find a Doctor tool.

**HOW IT WORKS**

1. Visit independenthealth.com and click “Find a Doctor,” and then “I have other coverage.” This will take you directly to the search tool.

2. **Type in your criteria and hit “Search.”** You can search for a provider by name, specialty or condition; by location; and by plan type. Be sure to select “Self-Funded Services” as the plan.

3. **Filter your results.** This allows you to perform a more specific search based on distance, specialty, language or gender, or if a provider is accepting new patients.

4. **Click “View Details” for more information on each provider.** This is where practice information and hospital affiliations can be found.

5. **Click “Get Directions” to see where a provider is located on the map.**

**Before Your Appointment**

Independent Health’s online provider directory is updated regularly. Make sure your provider is in the Independent Health network prior to each visit so the services you receive are covered under your plan. Also, be sure to follow any preauthorization or precertification procedures required by your plan.

**Questions?**

For information about your benefits, please refer to your Summary Plan Description. If you have questions or would like additional information about the Independent Health network, contact our Member Services Department at (716) 631-2661 or 1-800-257-2753.
